

LINE PACK VB PLUS

Heat sealing machine

LINE PACK VB PLUS

Advantages

- In-line heat sealer for vacuum or modified atmosphere pouches
- Products: suitable for packaging deli meats and cheeses
- Frame in AISI 304 stainless steel and anodized aluminium with thermoformed guards
- Different packaging types: sealing; heat sealing with vacuum, or heat sealing with modified atmosphere
- Four-side seal pouches
- Film unwinding with automatic registration
- Reduced handling of products
- Optimization of packaging times and costs
- Easier workforce organization
- Higher margins
- Fast return on investment
- Full accessibility and ease of cleaning
- Compact dimensions
- Automatically controlled packaging cycle
- Protection type:
 - IP X5 - slicer
 - IP X3 - heat sealer
- Quadruple photocell product detection system
- Synchronization between slicer and packaging machine for coordinated stopping and control over production times
- Easy-opening tab
- Gas injection system included
- Separate sharpener

Use

- Supermarkets
- Hypermarkets
- Meat processing plants
- Small salami factories

Dimensions

The Bizerba LINE PACK VB PLUS heat sealer is the optimal solution for slicing and packaging meats and cheeses.

	Electrical Power Supply	Three phase 3P x 400 V + N + E / 50 Hz 4 kW
	Product size (width x length)	250 x 180 mm
	Slices per minute	from 30 to 80
	Slicer carriage length	400 mm
	Slice thickness	0.5 – 12 mm
	Oil-free dry compressed air pressure	Min 6 bar Max 10 bar
	Vacuum pump	Lubricated 60 m ³ /h
	Compressed air consumption	3 Nlt / cycle
	Protective gas pressure	Min 3 bar Max 6 bar
	Standard mould and die (width x length)	282 x 232 mm
	Cut pack dimensions (width x length, maximum mould option)	Max 282 x 252 mm
	Cut pack dimensions (width x length, special moulds option)	Max 282 x 212 mm Max 282 x 182 mm
	Reel dimensions	Max width 320 mm Max external dia. 220 mm Internal shaft dia. 76 mm
	Effective pack dimensions (width x length, internal)	Max 263 x 213 mm
	Pack height (width x length)	Max 15 mm
	Outlet chute height (Height measurements may vary by +/- 80 mm)	750 mm
	Overall dimensions length x width x height (Height measurements may vary by +/- 80 mm)	2298 x 1322 x 1704 mm

The automatic heat sealer allows modified atmosphere or vacuum packaging for longer shelf life of the sliced products while maintaining a “hand-crafted” appearance of the packaging. The unit was developed using the latest technological advances in order to reduce maintenance requirements and maximize ease of use.

Hardware

- VSI-T
- Line Pack VB Plus

Operating steps

1. Place the product on the slicer
2. Retrieve the article code (PLU)
3. Start the packaging cycle
